

# Introducing the Vitalize Peel®

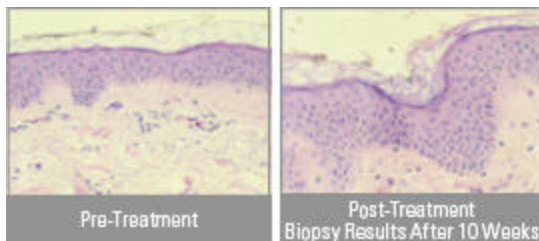

The Vitalize Peel® helps fight the effects of time, sun damage, and environmental assaults. This powerful yet non-damaging peel can take years off aging skin. You can do the peel in approximately 30 minutes in our office. This special formulation includes a unique blend of peeling agents: alpha-hydroxy acids, beta-hydroxy acids, resorcinol. As the “finishing touch” we also add in the use of a retinoic acid as well.

Optimal benefits are seen with a series of peels used in combination with an appropriate home skin care regimen, However, you will see a measurable result even after just one peel.

## Benefits:

- Very superficial peel requires little to no downtime for you
- The only superficial peel suitable for all skin types I-VI
- Self-neutralizing formula is easy to use
- Results are predictable and noticeable after just one peel
- Dramatic results are seen after a series of peels

## Clinically Proven on Photodamaged Skin

Condition: Photoaging

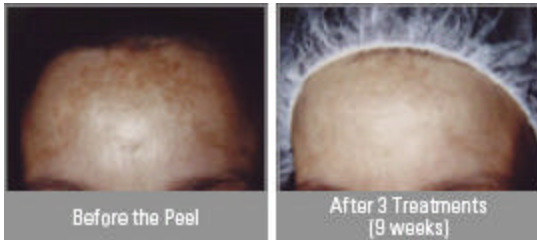

Treatment: In a clinical study of 10 patients, each underwent a series of three Vitalize Peels at three, six, and nine weeks.

In pre- and post-treatment biopsies, an average 50 percent increase in Grenz-zone collagen and an average 22 percent increase in epidermal thickening was noted.

## For Sun Damage, Melasma/Severe Hyperpigmentation

- Diminishes the appearance of age spots and freckles
- When used in combination with hydroquinone, dramatically improves the treatment of hyperpigmentation

- Noticeable reduction in the appearance of hyperpigmentation with a series of peels

### **For Acne-Related Hyperpigmentation**

- Noticeable improvement after one peel
- Patients experience the cumulative benefits of a series of peels with Vitalize Peel Multi-Paks (six peels)
- Obvious improvement in the look of skin texture and tone.

Sunburn alert: This product contains an alpha -hydroxy acid (AHA) that may increase skin's sensitivity to sunburn. Use a sunscreen and limit sun exposure while using this product and for a week following cessation of use. As with any skin care program, use of a sunscreen is strongly recommended.
