

Would You Let The Lowest Bidder Operate on You?

Why You Should NEVER get a price for your plastic surgery until you've seen the doctor

At the Virginia Center for Plastic Surgery we believe that a practice that gives out prices for cosmetic surgery without ever seeing the patient is potentially misleading. They are recommending a type of treatment without ever seeing or examining you.

You can get price ranges for common procedures, but these should only be used as a guide.

At the Virginia Center for Plastic Surgery, we will give you a detailed price quote for your personalized procedure only after your initial office consultation. The personalized quote for your procedure includes the following services:

- All Pre-op appointments
- The doctor's fee
- All follow-up visits after your surgery
- Post-op Home Care Package
- Hospital Fees
- Anesthesiology fees
- Medications
- Special medical garments when necessary

To schedule your free 15-minute phone consultation, and **get your questions answered** by a Board Certified Plastic Surgeon, just call our office at:

(703) 924-3144

We will arrange a time for you to talk directly with Dr. Desman
